The Chairless Chair allows you to easily switch between sitting, standing and walking

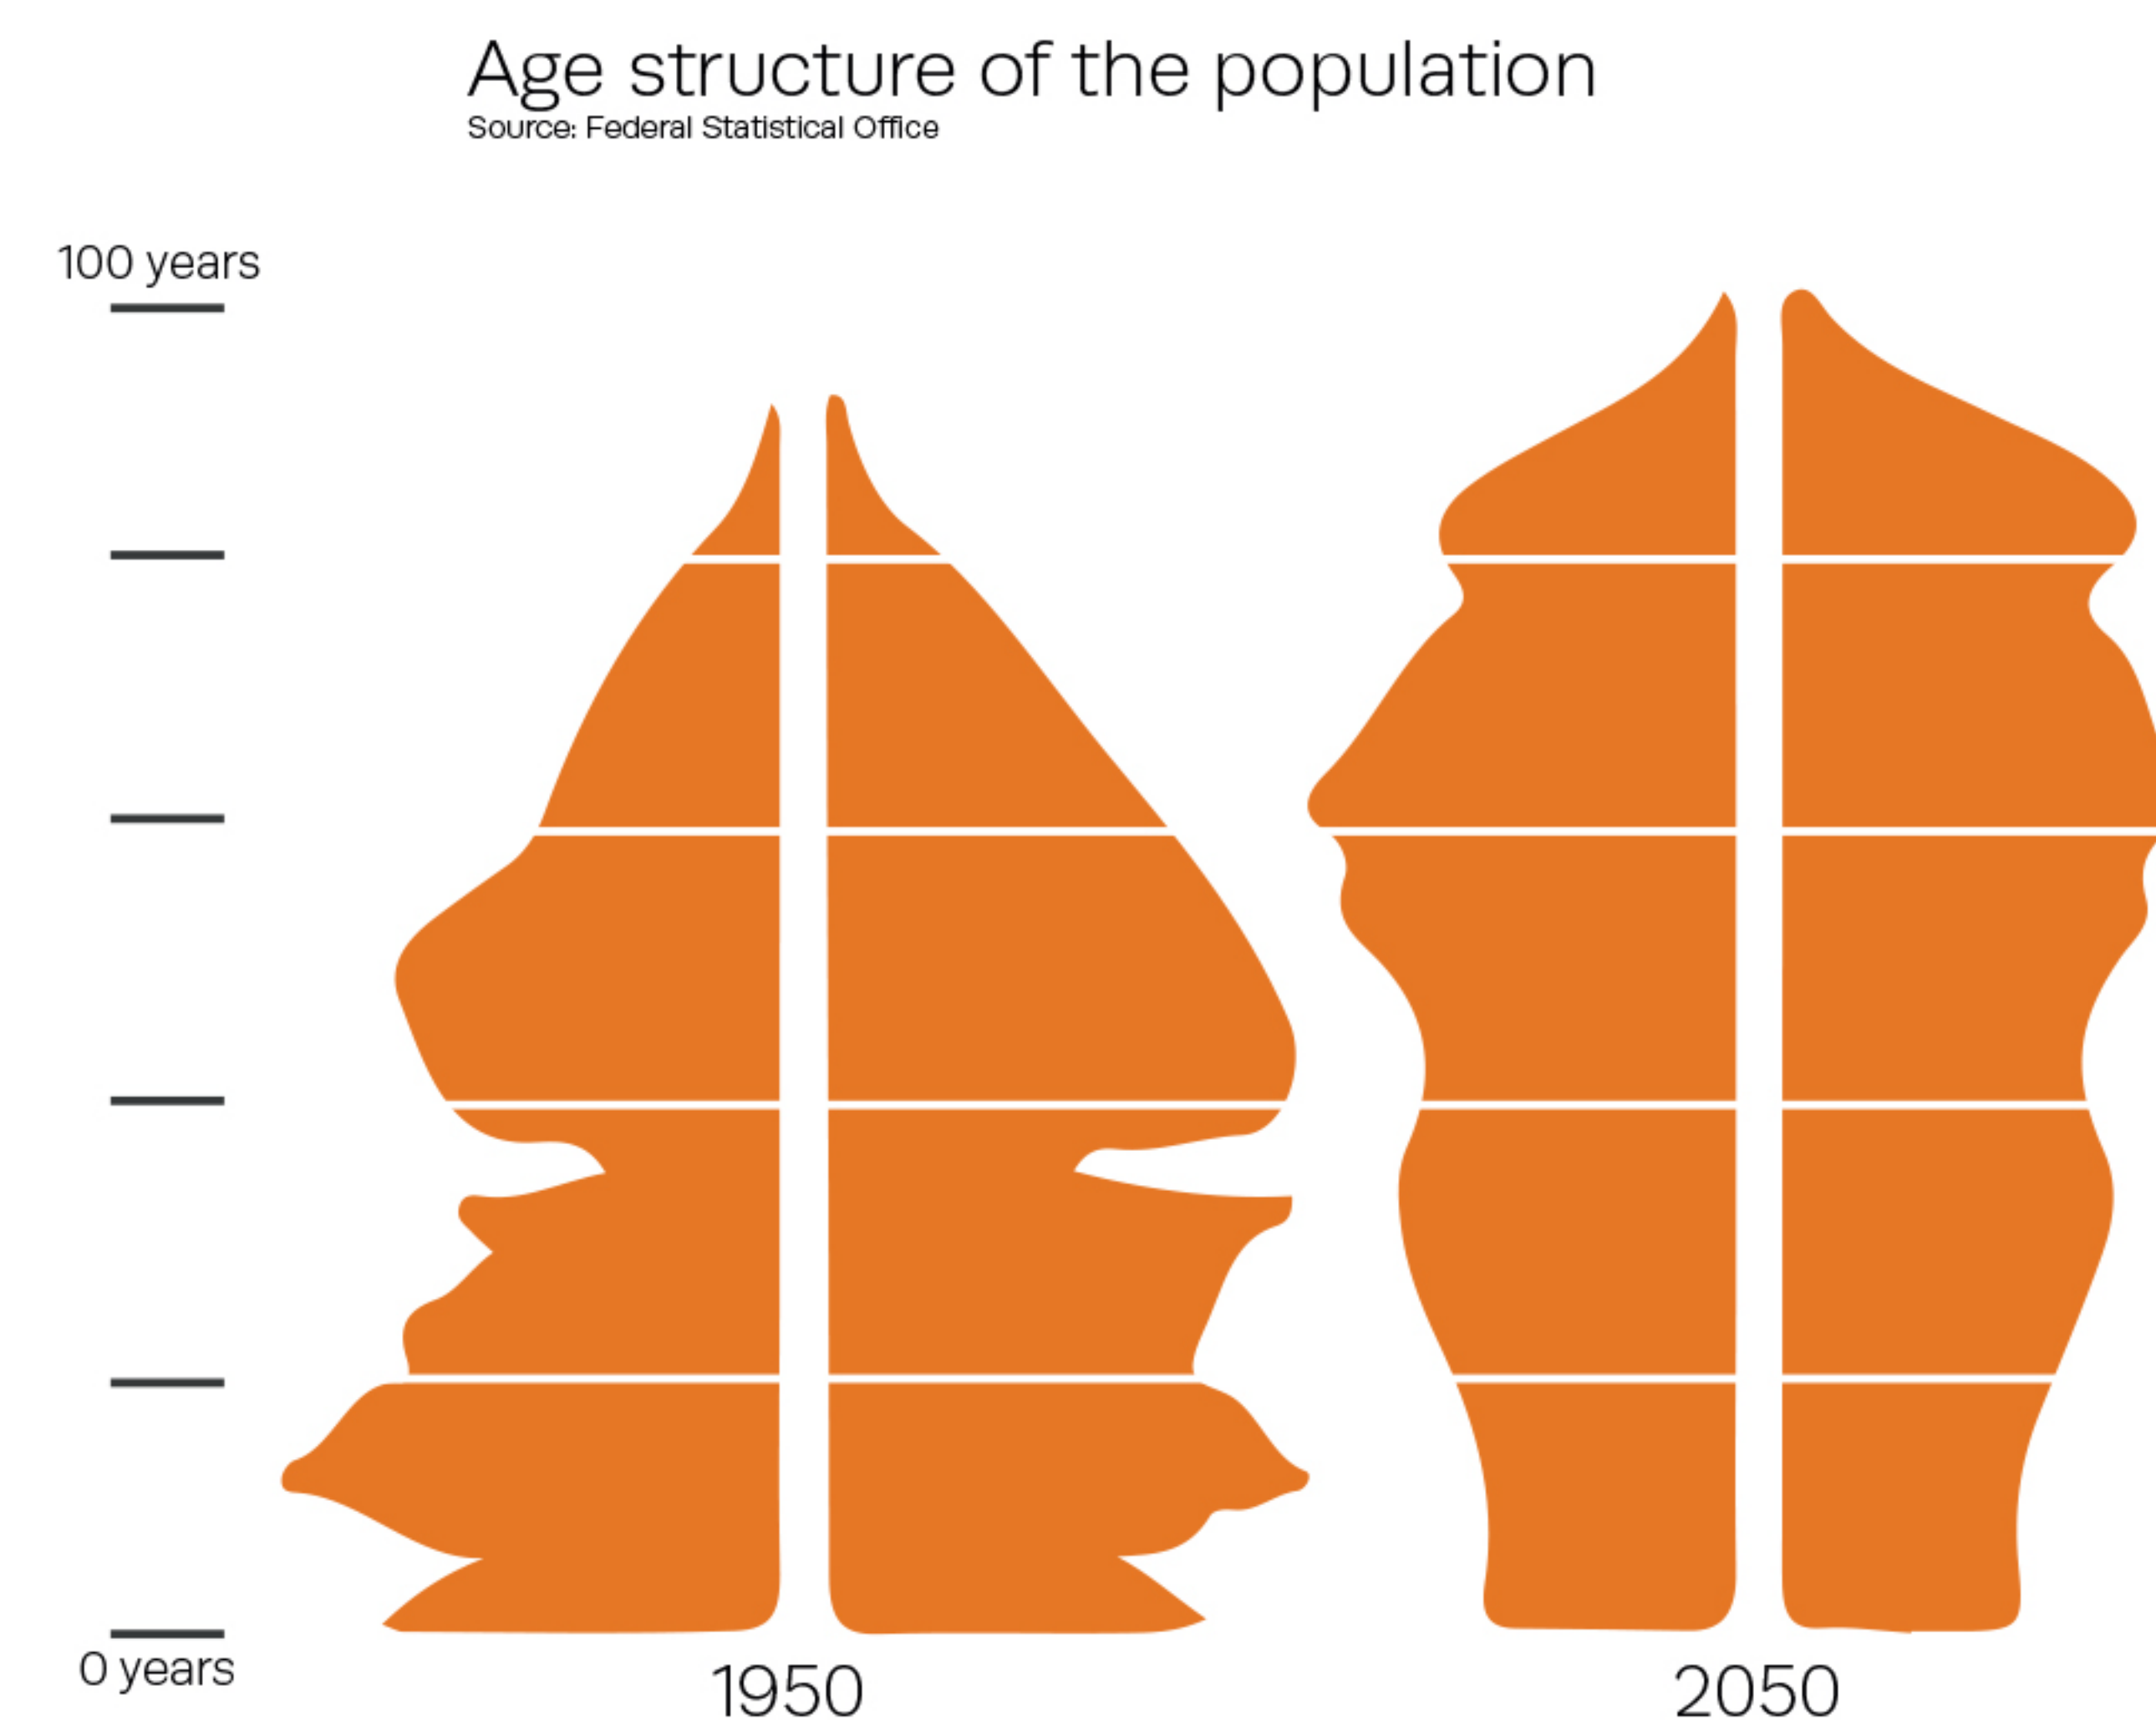

We don't give back, neck and knee pain a chance!

Through active sitting on the **Chairless Chair**, your back and thigh muscles are strengthened while your spine, intervertebral discs and knees are relieved.

The **Chairless Chair** supports a healthy and upright sitting posture and takes preventive action so that pain does not occur at all.

We won't become younger –
let's become smarter!

Increasing numbers of sick days go hand in hand with demographic change.

According to the results of a study by the umbrella organization of company health insurance funds, around **24%** of absences from work are caused by musculoskeletal disorders. These often result from unhealthy posture or constant standing at the workplace.

The solution: With the **Chairless Chair** you are less exhausted after your work is done.

Find out more about the Chairless Chair.

Test the **Chairless Chair** in your usual working environment. You will feel the positive effects after a very short time.

Out now: Training on how to use the **Chairless Chair** can now be done online anytime and anywhere.
