FLEX

**WE'VE GOT YOUR
BACK... AGAIN WITH
THE LAEVO FLEX**

MOVING BACK TO THE NEXT LEVEL

You've spoken, we've listened. The new Laevo Flex exoskeleton makes back pain a problem of the past. It is based on the feedback of our users and research after the most common user cases. This new exoskeleton is the best way to prevent backpain in situations where you need to be mobile and can use some back support.

Laevo Flex is 3x more effective in reducing back injuries. It can exert a much higher support torque, especially while coming up from bended posture. This exoskeleton is flexible, comfortable, personal and suitable with powerful support for every worker (all body shapes), for every work environment.

Discover the new Laevo Series!

FEATURES

- **Comfortable and personal:** Laevo Flex has a comfortable and personal fit for all body shapes, adjustable, supporting long wearing time, and very quick to don and doff. Its modular system has been specifically designed to fit all users.
- **Powerful support:** Laevo Flex provides up to 2x more support going down and 3x more support coming up, during the complete bending movement.
- **Dynamic lifting:** Laevo Flex allows for more dynamic and asymmetric lifting, including wide-stance squats.
- **Walk without restrictions - experience freedom:** Walk kilometers a day with Laevo Flex without any restriction, or the need to switch the exo on/off.
- **Dust and water resistant:** Wear it also outside. The smartjoint and system is dust and water resistant.
